

Tipu Ora has grown from a strong kaupapa of Whānau Ora to be one of the largest Māori providers in the Lakes District Health Board region.

Tipu Ora provides a wide range of primary health, social and education services accessible to all people living in the region as well as nationally delivering private training in Hauora Māori. All services target Māori and low income whānau but are accessible to everyone.

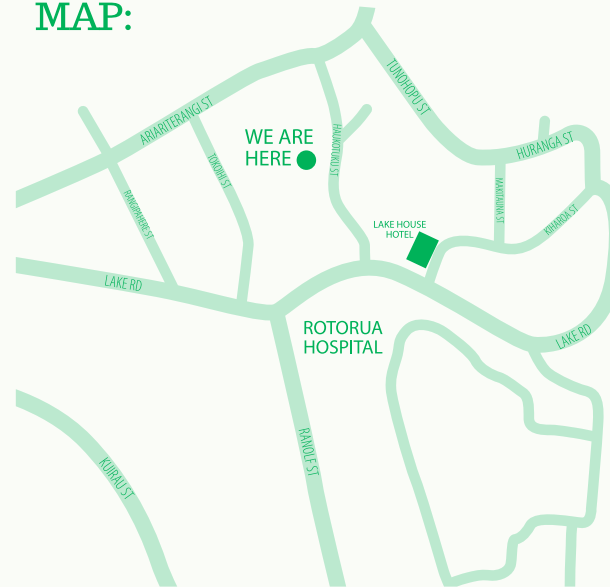

Tipu Ora has invested significantly in its quality management systems and is proud to have been awarded accreditation from DAA Group (a Designated Audit Agency), approved by the Ministry of Health.

Tipu Ora seeks to make a difference by focusing on the health and wellbeing of tamariki and their whānau, as it is through new beginnings that whānau ora will be achieved.

We are committed to working with and alongside our clients and their whanau to meet their aspirations for improving their pathway in health, education and social services.

With centres of excellence in Oral Health, Well Child Tamariki Ora and Midwifery, Education Training and Family Services, we aim to build on this platform of integrated services to grow our presence and impact in these areas through investing in the development of our staff, knowledge, systems and services.
